

# Brunswick Terminal Station upgrade

## Our commitments to the community

AusNet Services is committed to providing a positive outcome for the community, as well as doing our best to minimise the impact of our work during the construction and delivery phase of the Brunswick Terminal Station upgrade.

Category	Promise
Environment	<ul style="list-style-type: none"><li>• Ensure construction workers are aware of the site's environmental and community sensitivities and context</li><li>• Ensure construction workers are aware of their responsibilities</li><li>• Prevent spread of weeds from the site</li><li>• Prevent the infestation of animal pests, particularly foxes, rabbits and rats</li><li>• Prevent adverse environmental and community impacts from construction</li><li>• Minimise loss of soil and creation of dust</li><li>• Minimise degradation of the quality of water leaving the site</li><li>• Minimise the generation of excessive construction waste, including litter</li><li>• Minimise contamination of the environment from dust</li></ul>
Contamination	<ul style="list-style-type: none"><li>• Further analyse and characterise Contaminants of Potential Concern (COPC) and have area specific contamination management and response plans in place prior to any earthworks, construction or demolition activities</li><li>• Minimise risks to the environment and human health associated with earthworks, construction and demolition activities</li><li>• Ensure construction workers are aware of potential contamination issues through site inductions, environmental training and daily toolbox meetings, and undertake these activities in accordance with applicable Federal and State legislative and policy requirements</li><li>• Ensure all earthworks, construction and demolition activities which expose contaminants of potential concern are managed to prevent stormwater or dust discharges</li></ul>
Health & Safety	<ul style="list-style-type: none"><li>• To comply with all relevant health, safety and environmental standards and guidelines</li><li>• Prevent adverse environmental and community impacts from construction</li><li>• Ensure all personnel have relevant knowledge of environmental management, know their own (and others') environmental responsibilities and carry out their duties in order to successfully implement the Construction and Environmental Management Plan (CEMP)</li></ul>

Category	Promise
Noise	<ul style="list-style-type: none"> <li>• Use lowest practicable noise emitting equipment and plant</li> <li>• Visual inspection of all equipment to operate on site to ensure all noise mitigation (e.g. mufflers) is suitable for the use</li> <li>• Stationary plant items such as generators will be located as far away from neighbourhood interfaces as practical and screening will be provided as required</li> <li>• Use of sound proof generators</li> <li>• Regular servicing of machinery and vehicles</li> <li>• Noisy activities will be undertaken during less sensitive times where practicable</li> <li>• Quiet (broadband) reversing alarms</li> <li>• Pre-construction and post-construction dilapidation surveys</li> <li>• AusNet Services will comply with noise limits, set out in EPA Publication 1254. AusNet Services will make every effort to undertake construction works between 7am-6pm on weekdays and 7am-1pm on Saturday but cannot guarantee that no work will be done after 6pm on weekdays or 1pm on Saturday. For a full schedule of permitted times, please refer to EPA Publication 1254 which can be found at <a href="http://www.epa.vic.gov.au/noise/noise_publications.asp">http://www.epa.vic.gov.au/noise/noise_publications.asp</a></li> </ul>
Vibration	<ul style="list-style-type: none"> <li>• To minimise the effect of noise and vibration on the local community</li> <li>• All site personnel to receive induction on the requirements of the noise and vibration sub plan. These inductions include: <ul style="list-style-type: none"> <li>– Work hours</li> <li>– Deliver hours and locations</li> <li>– Noise minimisation measures</li> <li>– The importance of regular plan maintenance</li> </ul> </li> <li>• Ongoing training will ensure updates to noise management procedures are implemented and maintained</li> <li>• Records will be kept of all personnel undertaking the site induction and training, including the contents of the training, date and name of trainer</li> <li>• An acoustic consultant will be engaged as required</li> </ul>
Traffic	<ul style="list-style-type: none"> <li>• Avoid vehicle accidents and protect life and property</li> <li>• Avoid or minimise environmental damage, and visual and noise disturbance due to vehicular traffic</li> </ul>
Construction timing and impacts	<ul style="list-style-type: none"> <li>• Provide appropriate mechanisms for the collection, treatment, recycling, reuse and disposal of construction waste and litter</li> <li>• Prevent environmental degradation caused by the inappropriate disposal of construction waste and litter</li> <li>• Provide for the environmentally responsible disposal of all construction waste and litter</li> <li>• Conserve resources and maximise the recovery of reusable materials</li> <li>• The construction contractor will formulate and implement a waste minimisation strategy</li> </ul>
Information	<ul style="list-style-type: none"> <li>• AusNet Services is committed to keeping the community informed during the upgrade</li> <li>• Contact us via <a href="mailto:brunswickts@ausnetservices.com.au">brunswickts@ausnetservices.com.au</a> or telephone: 1800 4636 287 (1800 INFO BTS) with any questions or concerns you might have</li> </ul>
