ATO Settlement Deed and Corporate Simplification Proposal Update

On 22 October 2014, AusNet Services advised that it had reached an in-principle, non-binding agreement to settle all matters concerning the Division 974 audit and related reviews with the Australian Taxation Office ("ATO"). Execution of a binding Settlement Deed was expected to occur by the end of November 2014. AusNet Services and the ATO are now working towards execution of the Settlement Deed by the end of the 2015 financial year (31 March 2015).

On 14 November 2014, AusNet Services announced a restructure and simplification proposal (**Proposal**) whereby existing stapled entities would become wholly-owned by a new listed entity (to be called AusNet Services Ltd). The Proposal is to be implemented by way of company and trust schemes of arrangement and is subject to due diligence, applicable regulatory approvals and the approval of securityholders and the court.

Although the Proposal is not conditional on execution of a binding Settlement Deed, the delay in execution of the Settlement Deed has caused AusNet Services to be unable to finalise documents associated with the Proposal (including a Securityholder Booklet) so that implementation could occur within the 2015 financial year, as originally targeted. Further progress will be made towards implementing the Proposal as soon as practicable and securityholders will be kept advised of material developments.

FY 2015 distribution guidance of 8.36 cents per security remains unchanged
