AusNet Services presents \$5,000 cheque to Upper Kiewa Valley Community Association

Today, AusNet Services presented a \$5,000 cheque to the Upper Kiewa Valley Community Association (UKVA) to go towards developing concept plans for the proposed public reserve along the West Kiewa River.

The UKVA is exploring potential public uses of the site, located at the entrance to the Mount Beauty township.

AusNet Services' Regional Customer and Community Manager, Craig Velt, said that the company is committed to partnering with local community groups to help deliver projects that have broad community benefits.

"AusNet Services is proud to be involved with a community-led project to clean up the reserve for the purpose of making it easily accessible to public amenities," Craig said.

"We understand the complexities of delivering a project such as this, so we are pleased to be able to provide funding support.

"We look forward to seeing the project develop into a public reserve provided by the community for the community," he said.

Each year, AusNet Services commits \$150,000 in sponsorships and donations across northern and eastern Victoria.
